## Red Cross Ready Rating Program

### Are you Ready?

Over 40% of businesses experiencing a disaster never re-open their doors. We need to change that.

The Red Cross has a Ready Rating Program to help businesses prepare for a disaster. It provides you concrete measurements to show your readiness so you can see improvements over time.

This is just one of many resources on our website to help businesses prepare for a disaster.

## OSHA Safety Management Tools for Small Businesses

Safety Writer, Accident Tracker, and RecordKeeper are three free, online safety management tools for small businesses. They are used by OSHA Consultation Services across the US as well. Onsite registration for the programs is free.

This is another resource on the Tools for Business section of our website to help employers.

## Need to develop a Drug Free Workplace Policy?

Government contractors and businesses affecting the safety or security of the public are required to have a drug-free workplace policy. Some workers compensation companies reduce your premiums if you have one. The US Department of Health and Human Services has a Drug-Free Workplace Kit to help you understand your legal obligations and how to develop and implement a policy.

## Member Spotlight: The Highlands

Upon opening the front doors of The Highlands of Dyersburg, you will experience a common theme throughout the facility. A new administrator, new staff, and new renovations from lighting to flooring and everything in between. When asked about the new vision for the facility, Administrator Zach Griswold shares, "It is our goal to provide a hotel experience for the aged and elderly. We want to provide an inviting atmosphere to our residents and their families." The facility has even made upgrades to the dining experience by providing full service dining which includes servers and an open grill. "From our standards, good is never good enough. We are never going to lull ourselves to complacency, we will constantly evolve and change to meet the needs of the Dyer County population and surrounding areas," stated Zach Griswold.

Tiffany Brimm, Marketing Director, and Zach Griswold, Administrator.

After receiving his Bachelors Degree in Liberal Studies from the University of Missouri - St. Louis, Zach began his career with The Highlands at their Memphis facility as an Administrative Assistant. He worked in every department and quickly moved up the ranks as Administrator in Training, Assistant Administrator, and into his current role of Administrator of The Highlands of Dyersburg. When asked about the experience of moving to a smaller community, he replied "I have felt right at home since coming to Dyersburg, the people are very friendly and inviting. I have been able to become a part of this community, attend morning Rotary, and get involved."

Stella Barron, Social Worker, Zach Griswold, Administrator, and Denise Scott, Admissions

There have been changes in different departments with the addition of new friendly staff to help serve the residents and their families with compassion while providing the best possible care and experience. "If you haven't visited The Highlands of Dyersburg in the past year, we invite you to come by and see the renovations that are taking place and the changes that we have made to improve our facility and provide the best possible care for our residents," stated Zach. "We have added seven day a week therapy and vital stem therapy for stroke victims and that is something that is not offered anywhere else in this area." He also shared his passion for working with the elderly "some people only have two grandparents, now I have one hundred grandparents and at The Highlands we treat them as if they are our own family."

The Highlands of Dyersburg is an active member of The Dyersburg/Dyer County Chamber of Commerce and is a sponsor of the "All Hands on Deck" Membership Campaign. Tiffany Brimm, Marketing Director, is an active Chamber Diplomat and works with the Chamber on events and ribbon cuttings.
